Dante De Nicoló
Full Stack Developer

I am a highly skilled and adaptable Full Stack Developer with a passion for building innovative web applications. With a strong background in MERN stack development and extensive experience in leading teams, I have successfully delivered projects from scratch while leveraging technologies such as React, Express, MongoDB, and more. With a focus on user experience and performance optimization, I have also played a key role in enhancing e-commerce websites, driving a significant increase in sales through strategic advertising campaigns. Proficient in multiple programming languages and armed with a Systems Engineering education, I bring a strong foundation in problem-solving and a collaborative approach to my work. Fluent in English and Spanish, I possess exceptional communication and leadership skills, enabling effective coordination of tasks and successful collaboration with cross-functional teams. I am excited to contribute my expertise and drive innovation in the field of web development.

EXPERIENCE

PavosPrim, Buenos Aires AR | www.pavosprim.com
Full Stack Software and Web Developer, November 2023 to February 2024
- Developed PavosPrim's website from scratch using latest technologies such as React, Node.js, Express, Firebase, etc.
